

## E-Track Diploma Policies

### **Business Economics (BE) and Digital Business and Innovation (DBI) Majors**

To obtain a diploma with a BE or DBI major, students must earn the required credits and develop the following competencies:

1. The ability to use one's communication skills, bolstered by knowledge in a wide variety of different fields, to find areas of economic society where one can serve as a productive generalist.
2. The ability to use the academic knowledge one has acquired through deep, specialized study to help solve real-world problems.
3. The ability to use the knowledge and skills one has acquired in economics and related fields to formulate optimal strategies.
