PROGRAM OVERVIEW

Tokyo International University offers master's degrees in Digital Business & Innovation, Economics and International Relations with all courses taught in English, as well as a 5-year Ph.D. degree in Digital Business & Innovation. The programs are designed to meet the needs of students around the world, and enable graduates to flourish on the global stage through studying in a truly multi-cultural academic environment in Tokyo, the center of technological innovation, historical tradition, and global business of Japan. All master's programs welcome applications not only from current undergraduates but also from mid-career professionals and others who seek to advance their expertise in business and global affairs.

Master of Science (M.S.) in Digital Business & Innovation **(Graduate School of Business and Commerce)**

The dramatic changes caused by innovations in technology and the expanding global economy have opened up vast opportunities around the world, especially in emerging countries. Starting with well-rounded foundation courses, the newly developed Master's Program in Digital Business & Innovation offers a flexible curriculum that allows students to select a variety of courses from areas covering digital economy, digital marketing, digital technologies and business, and entrepreneurship that are paramount for building professional careers in demand today. Digital technologies that are covered include artificial intelligence, blockchain technology, deep learning, virtual reality (VR), augmented reality (AR), mixed reality (MR), social media, and more. A unique element of the program is it gives students hands-on experience in data analytics or running a business. Under supervision and guidance from faculty, students can write an Honor's Thesis to prepare for advancing to Ph.D. studies, or produce a thesis with research and practical orientation aimed to achieve career goals.

Master of Arts (M.A.) in Economics Program (Graduate School of Economics)

The Graduate School of Economics of Tokyo International University (GSE-TIU) aims to train creative experts who have the ingenuity to face diverse policy issues from a global perspective. It also focuses on developing basic research capabilities that enable students to explore policy challenges in the real economy. Students can hone their analytical skills by pursuing a well-rounded variety of courses in a multi-cultural environment. Through intensive tutorial seminars and joint workshops, students can advance their research to complete a truly outstanding thesis.

Master of Arts (M.A.) in International Relations Program **(Graduate School of International Relations)**

The master's program in International Relations provides students with a unique opportunity to develop expertise on a wide range of global issues, such as war and regional conflict, development and sustainability, climate change, and human rights. With its diverse faculty and student body combined with small class sizes, the program encourages active learning through debates, presentations, group projects, field studies, internships, and the like. It prepares students for global leadership and enables graduates to pursue careers in international organizations, business, education, public administration, and NGOs.

5-year Ph.D. Degree Program in Digital Business & Innovation **(Graduate School of Business and Commerce)***

This intensive program allows motivated, focused students to earn a Doctorate degree in Digital Business & Innovation in 5 years. Students spend the first 2 years intensively earning credits toward their Ph.D. degree. Students then take two preliminary examinations, then advance to the Ph.D. thesis seminar upon passing the exams. During the final 3 years, students focus on their specializations even more as they prepare their Ph.D. dissertation. It is possible for students who do not pass the two preliminary exams and withdraw from the 5-year Ph.D. program to change their affiliation to the Master's Degree only program. Students who change their affiliation and meet all requirements for completion, including the thesis, may earn a Master's Degree.

Students who pass the two preliminary exams but do not successfully complete their dissertation have the option to withdraw from the 5-year Ph.D. program and obtain just a Master's Degree.

***If you would like to apply for the 5-year Ph.D. Degree Program, please contact the E-Track Admissions Center before you apply. We also offer an independent 3-year Ph.D. Degree Program for those who already have a relevant Master's degree.**

The Thesis Track is for applicants who 1) have a background in international relations or political science; 2) plan to later pursue a Ph.D.; and 3) plan to pursue an academic career in places such as universities and think tanks. In addition to course work, submission of a thesis is required.

The Policy Track is for applicants who may or may not have a background in international relations or political science but are interested in policy issues on topics such as environmental protection, poverty alleviation, refugees, national security, and foreign affairs. The Policy Track is designed for students who wish to pursue a career in international organizations, NGOs, foreign service, and global corporations. In addition to course work, submission of a policy paper is required.

Note: Online Interview

Those who want to apply for our master's program in International Relations are strongly advised to have an online interview with a faculty member under whose guidance the applicant wishes to write a thesis or policy paper. This informal interview is highly recommended as it allows applicants to meet with their preferred adviser. The faculty member can explain our program/curriculum in further detail, give advice on which track to choose, and answer other questions. Applicants should contact their preferred faculty adviser to schedule an online interview before submitting their application. Faculty member profiles and e-mail addresses can be found at: <https://www.tiu.ac.jp/etrack/faculty/ir.html>.

Other Scholarships

- **JASSO Monbukagakusho Honors Scholarship for Privately-Financed International Students Pre-arrival Admission**

One of the most commonly applied for scholarships by students enrolling at TIU is the "Monbukagakusho Honors Scholarship for Privately-Financed International Students Pre-arrival Admission (University Recommenders)" offered by the government affiliated Japan Student Services Organization (JASSO). TIU will provide information to admitted students on how to apply for this scholarship with TIU's recommendation. We will post information regarding the JASSO Scholarship application on My TIU Page at the end of January for spring enrollment, and at the end of June for fall enrollment. For more details, please refer to the following website:

📄 https://www.jasso.go.jp/en/study_j/scholarships/shoureihi/tonichimaeyoyaku.html

- **Other Public / Private Scholarships Available after Enrollment (Japan)**

There are several other scholarships offered by public or private organizations in Japan. The Japan Student Services Organization (JASSO) provides a list of public and private scholarship programs for international students.

For more details, please refer to the following website:

📄 <https://www.studyinJapan.go.jp/en/planning/by-style/pamphlet/>

Applications for some of these scholarships are accepted by TIU after enrollment. Please note that each scholarship has its own requirements which must be met, such as language proficiency, nationality and/or visa type. The requirements may not be the same as TIU's own application requirements. Applicants who have been awarded with a scholarship are required to inform TIU and submit proof as soon as it becomes available.

- **Scholarships and Financial Aid Offered by Foreign Organizations**

Students may be eligible for scholarships or financial aid offered by public or private organizations in their current country of residence. Currently, TIU students can receive financial aid provided by their home country's organizations.

Students must apply for these scholarships or benefits on their own. If you are a recipient of any such scholarships, please submit a document to TIU to prove your entitlement as soon as it becomes available.

- **Scholarships Offered by the Ministry of Education, Culture, Sports, Science and Technology of Japan (MEXT Scholarship)**

TIU only accepts Embassy recommendation applicants, and do not accept university recommendation applicants. Applicants must apply directly to Japanese embassies or consular offices outside Japan, and pass the preliminary screening conducted by them.

Living Cost in Japan

- Scholarships can ease students' financial burden. However, financial support, either your own savings or a financial supporter's income, is still necessary to live and study in Japan. The 'Student Guide to Japan', published by JASSO, includes a section on "Expenses" which may help you understand more about the cost of living in Japan

Holder of residence status in Japan

(a) Student visa holder

- If you have a gap of more than 3 months between graduation from your current school and entering TIU, you must return to your home country once and apply for your COE and visa in your country.
- If the time of entering TIU is within 3 months of graduation from your current school, you are required to visit the Immigration Services Agency and confirm whether you can keep your current student visa (Residence card) to enroll in TIU on your own. If you are asked to re-apply for a new student visa, please contact the IEO immediately.
- Regardless of the date of expiration stated on your residence card, **your student visa and permission to work part-time will expire upon course completion and leaving your current school.**

(b) Other visa holder

- If your visa expires before enrollment to TIU, you are required to visit the Immigration Services Agency and extend your visa on your own. Applications are accepted 3 months prior to the date of expiration.

Notes

- If you do not have a passport at the time of application, prepare one as soon as possible.
- Please do not purchase your flight ticket until you receive your COE.

Warning

- If you stay in Japan illegally, you will face a high risk of being arrested by authorities, which may result in deportation.

Student Visa (COE) Application Process

- STEP 1:** The first set of instructions for the COE will be sent to students' email addresses. This email may come from the IEO or one of the scrivener offices. If you have any questions about the process, please read the email first and then contact the party that is handling your COE application (either the IEO or scrivener office).
- STEP 2:** Submit all required documents to either the IEO or one of the scrivener offices as a direct reply to the email message from the party that is handling your COE application (step 1). Inaccurate information or discrepancies in the documents may result in the rejection of your COE application.
- STEP 3:** The IEO or scrivener office will apply for your COE on your behalf once TIU has confirmed your enrollment fee payment. It usually takes about 6-12 weeks for the COE to be issued. The Immigration Services Agency's official document states that it takes 2-3 months for the COE to be issued, so keep the deadline specified by TIU.
- STEP 4:** Receive your issued COE. Once your COE has been issued, we will send it to you by e-mail.
